Abstract. Judges, as Alexander Hamilton famously noted, lack the purse or the sword, and so must rely on their reputation to secure compliance with their decisions. This book uses the economics of information to understand the organization of the judiciary. While there is no shortage of other accounts in comparative law trying to explain judicial organization, most of these draw very heavily on history, tradition, and culture, emphasizing distinctions like that between the common law and ...

~~Judicial Reputation: A Comparative Theory - University ...~~

Judicial Reputation is a book of huge significance—not only, as its title suggests, for comparative legal theory, but also because of the vast potential applications of Garoupa and Ginsburg's research. The chapter on the international reputation of judges, for example, unveils a fascinating dimension of globalization and paves the way for further research on forum shopping and international judicial competition."
