More importantly, you need to be able to VISUALISE it, that is able to see the components in the character, how they are combined and the order they are combined. In our books, we teach Chinese characters broken down into PARTS (not strokes only). A part

can be a stroke or a Chinese Alphabet. A Chinese Alphabet is a repetitive component that is made up of 2 to 6 strokes. Learning Chinese Alphabets before learning Chinese characters helps to reduce memory work - don't remember a character by disintegrated strokes, remember it by PARTS (strokes and alphabets) and do it systematically.
