This richly detailed 1981 biography captures both the personal life and the scientific career of Isaac Newton, presenting a fully rounded picture of Newton the man, the scientist, the philosopher, the theologian, and the public figure. Professor Westfall treats all aspects of Newton's career, but his account centres on a full

My name is Eli. I am the one
telling the story and the
one the story is about. The
one with the voices in her
head. Eli Larsen is a
talented author and film-
maker. She writes books. She
directs films. She wins
awards. She is a success.
But Eli has a secret. Since
she was a child she has
shared her life with Espen,
Erik, Prince Eugen and Emil.
Sometimes they're friendly,
sometimes comforting, but
sometimes they want to hurt
Eli and the people she loves
most. In this candid and

beautiful novel Beate Grimsrud offers an unflinching insight into the secret world of the mind.

They have a child and life changes. He can't go out and she can't stay in. He writes words that no one will publish and she takes a lover. "I don't know what it is/ that always make something happen/ But it must be something/ because something always happens/ I don't want anything to happen/ and then something/ happens all the same."

Pippi Longstocking meets Heidi meets Anne Shirley in this tale of an irrepressible girl in a mountain village who navigates unexpected changes with warmth and humor. Speed and self-confidence, that's Astrid's motto. Nicknamed "the little thunderbolt," she loves to spend her days racing down the hillside on her sled, singing loudly as she goes, and visiting Gunnvald, her grumpy, septuagenarian best friend

and godfather, who makes hot chocolate from real chocolate bars. She just wishes there were other children to share her hair-raising adventures with. But Astrid's world is about to be turned upside down by two startling arrivals to the village of Glimmerdal: first a new family, then a mysterious, towering woman who everyone seems to know but Astrid. It turns out that Gunnvald has been keeping a big secret from his goddaughter, one that will test their friendship to its limits. Astrid is not too happy about some of these upheavals in Glimmerdal – but, luckily,
