The hydraulic clutch on a Ford Ranger uses brake fluid to pressurize the clutch system and makes it easier to disengage the clutch from the transmission. If the clutch system runs out of fluid or the system runs low on fluid, the system will not work properly. You will not be able to change gears or disengage the clutch at all (in some cases).

~~How to Diagnose the Hydraulic Clutch on a Ford Ranger | It ...~~

Can you get your 2020 Ford Ranger with a manual transmission? With such a healthy selection of packages and options for the Ranger, you'd think a manual gearbox would be available as well. You would, however, be wrong. All Rangers come with an automatic transmission as the only option. While older model Rangers presented manual capabilities, moving forward, Ford will be moving away from ...

~~Does the Ford Ranger Have a Manual Transmission?~~

Here is an example of a chart provided by the manufacturer of the Ford Ranger. As you can see, it lists a variety of acceptable transmission fluids for this particular make and model, which
