retail level.

Revised edition of Mathematics for retail buying, 2014.

An introductory text that balances retail theory, application and math concepts within the context of buying. New companion website includes basic math tutorials and more assignments using computerized spreadsheets.

This informative, full-color text takes students step-by-step through the decision-making involved in the pre-production processes of apparel product development---planning, forecasting, fabricating, line development, technical design, pricing, sourcing, and distribution. It demonstrates how these processes must be coordinated to get the right product to market, when consumers want it, and at a price they are willing to pay. The 4th Edition has been edited around a new metastructure to maximize student learning. It continues to build on the themes of sustainability, business ethics, and the impact of fast fashion and social media while seeking to address opportunities for both large and small companies, and entrepreneurs. The text advances its discussion of how new technologies continue to shorten the product development calendar. Chapters have been updated to include current examples, updated charts and graphs, and more case studies. There are updated references to contemporary developments with examples relevant to today's student. New to this Edition · Includes international examples and case studies that address the effects of globalization · Advances the discussion of the pros and cons of fast fashion vs. slow fashion · Revised, easier-to-read charts and graphs and 30% new color photographs · Thoroughly revised Chapters 12 (Sourcing) and 13 (Costing and Pricing) updated with most recent info on trade laws, changes in sourcing criteria and wages in international sourcing countries Beyond Design STUDIO · Study smarter with self-quizzes featuring scored results and personalized study tips · Review concepts with flashcards of essential vocabulary · Watch videos that bring chapter concepts to life PLEASE NOTE: Purchasing or renting this ISBN does not include access to the STUDIO resources that accompany this text. To receive free access to the STUDIO content with new copies of this book, please refer to the book + STUDIO access card bundle ISBN 9781501315480. STUDIO Instant Access can also be purchased or rented separately on BloomsburyFashionCentral.com.

A career in fashion merchandising means working in a fast-paced, creative industry-and a highly competitive one. 'Developing and Branding the Fashion Merchandising Portfolio' is a guide to creating a portfolio and brand for yourself that will stand out.

**ALERT:** Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- Bridging the gap between current merchandising math textbooks and retail buying textbooks, The Fundamentals of Retail Buying with

## Read Book Mathematics For Retail Buying Bundle Book Studio Access Card

Merchandising Math incorporates both buying philosophies and merchandising math. The text's problem-based method of learning incorporates questions and problems that train the reader to think like a buyer and encourage group collaboration and critical thinking. Simulated exercises mimic real-life buying responsibilities. Additionally, the order of the chapters and content within each chapter mimic the training of an assistant buyer in a corporate buying office. Providing a full, broad view of the retail buyer's role, the text also includes the key merchandising math formulae that is the basis of all retail buying analysis.

"The legacy of Rana Plaza is increased consumer awareness of the global apparel industry's serious environmental and human rights challenges. Fixing Fashion exposes the worst of the excesses, while simultaneously celebrating the entrepreneurs and stakeholders driving meaningful change. Written by an industry insider, this compelling manifesto challenges each of us to take responsibility for the hidden cost of our clothes."--

This practical text takes students step-by-step through the preproduction processes of apparel product development: planning, forecasting, fabricating, developing silhouettes and specifications, pricing and sourcing. It demonstrates how these processes must be coordinated to get the right product to retail when customers want it and at a price they are willing to pay. Based on consultations with some of the most successful and innovative firms in the fashion business, the text covers the evolving partnerships among textile suppliers, product developers, manufacturers, and retailers as they work to develop apparel products in today's customer-driven environment. New to this edition:-- Increased number of case studies and sidebars-- International examples and case studies address the effects of globalization-- More information on menswear, children's wear, and special-size markets-- Updated tables and statistical information and new photo examples-- Discussion of Technological advancements related to product development-- Appx describing careers in product development and resources for additional research-- The context of a global agile manufacturing environment-- Best practices of major product developers-- Challenging hands-on product development activities-- Instructor's Guide includes course outlines, suggestions for teaching each chapter, and guidelines for overseeing and evaluating product development projects
