Assessment. While the technology used in the Nihon-Kohden BSM-3000, to measure blood pressure, has been claimed as being equivalent to that used in another device, not only has no evidence has been published to show that the devices were compared according to a protocol compliant with (EU) 2017/745 and MEDDEV 2.7/1 rev 4 but there is no evidence provided on a validation of the other device.
