Statistics for Business and Financial Economics, 3rd edition is the definitive Business Statistics book to use Finance, Economics, and Accounting data throughout the entire book. Therefore, this book gives students an understanding of how to apply the methodology of statistics to real world situations.

This title enables students to conduct serious analysis of applied problems rather than running simple 'canned' applications. The text is at a mathematically higher level than most business statistics texts and provides students with the knowledge they need to become stronger analysts for future managerial positions.

Drawing from the authors' unmatched experience as professors and consultants, STATISTICS FOR BUSINESS AND ECONOMICS, 13E delivers sound statistical methodology, a proven problem-scenario approach, and meaningful applications that clearly demonstrate how statistical information informs decisions in actual business practice. Completely up to date, more than 350 real business examples, 33 cases, and hands-on exercises present the latest statistical data and business information with unwavering accuracy. "This twelfth edition of Statistics for Business and Economics is an introductory text emphasizing inference, with extensive coverage of data collection and analysis as needed to evaluate the reported results of statistical studies and make good decisions. As in earlier editions, the text stresses the development of statistical thinking, the assessment of credibility, and the value of the inferences made from data, both by those who consume and those who produce them. It assumes a mathematical background of basic algebra." --xi (Preface).
