Calligraphy is a visual art related to writing. It is the design and execution of lettering with a broad-tipped instrument, brush, or other writing instrument. A contemporary calligraphic practice can be defined as "the art of giving form to signs in an expressive, harmonious, and skillful manner". Modern calligraphy ranges from functional inscriptions and designs to fine-art pieces where the letters may or may not be readable. Classical calligraphy differs from typography and non-classical hand

valuable skill through the ages, and even more so in the twenty-first century. Since the invention of writing, the written word has fueled humanity's astonishing progress. Thus, the ability to write effectively and beautifully has long been revered and rewarded. And yet in the digital age, people have begun to believe that this talent is somehow obsolete: that writing is something unworthy of study beyond the basic mechanics of vocabulary and syntax and grammar, that mediocre prose is acceptable in a world crying out for clear and precise communication. Peter Yang believes otherwise. *The Art of Writing* is Yang's highly practical treatise on the four key principles of dazzling, effective writing—economy, transparency, variety, and harmony. Far from your garden-variety style guide, this book offers principles that apply to everyone, whether you're writing an inauguration speech, a novel, or a letter home to Mom. Great writing is a skill, and this book gives you the tools to make your words shimmer on the page (or the screen). Packed with real-world insights and advice, *The Art of Writing* is your ultimate guide to transforming your writing and unleashing your inner artist.
